Polo Reserve Homeowners Association  
7010 S. Polo Ridge Drive  
Littleton, CO 80128

#### Project Manager

Alex J. Ariniello

#### Date

2004

#### Reference

Mr. William Fielding

#### Description

The Polo Reserve Homeowners Association retained LSC Transportation Consultants, Inc. to conduct a speed survey and traffic calming study for the Polo Reserve development located near Mineral Avenue and Platte Canyon Road in Littleton, Colorado. The purpose of this study was to identify speeding issues within the development and to develop a speed mitigation plan to reduce speeds in order to increase the safety of vehicles, pedestrians and bicyclists. The Board's desire was not only to slow traffic but also to provide safe areas for people to walk and bike. The end product was a study that provided the Polo Reserve Homeowners Association with two traffic calming plans along with cost estimates.
