Denver, CO 80222

Project Manager

Albert T. Stoddard III

Date

2006 - present

Reference

Kathy Engelson
(303) 757-9770

Description

LSC is part of team led by URS to develop 10 non-urban area regional plans and the state-wide transportation plan for Colorado. LSC is the lead firm for one of the 10 regions and is the lead firm for preparing all 10 transit components of the regional plans.

As part of this effort, LSC is preparing coordinated human services transportation plans for each of the planning regions. These plans will meet the requirements of the Federal Transportation Administration for funding transit programs. LSC has completed a comprehensive inventory of transportation providers throughout the state and is assessing the needs for transportation services. Gaps in service have been identified based on information provided by the transportation agencies. Additional gaps in service are being identified through a public process.
