Description

LSC worked with the Town of Superior and the Boulder Valley School District (BVSD) to improve the school drop-off/pick-up operations at this 900-student school. Due to neighborhood concerns, the back entrance was restricted to staff parking and bus drop-off/pick-up, with all parent drop-off/pick-up activities moved to the main entrance off of Indiana Street. LSC developed several parking and access scenarios which were presented to the Town staff, BVSD and school traffic safety committee. The final plan included a new kindergarten parking lot, a pedestrian island, and two loops for parent drop-off/pick-up. This plan was jointly funded by the Town of Superior and BVSD and constructed in 2005. LSC also provided educational materials to the school for distribution to parents on how to use the new circulation/parking plan.
