Mesa County
(970) 255-7168

Description

The Grand Valley Transit and Human Services Transportation Coordination Plan serves as the planning document which meets all Federal Transit Administration (FTA) and Colorado Department of Transportation (CDOT) requirements and guidelines for funding eligibility under SAFETEA-LU. CDOT will use this Plan in evaluation and approving grant applications for capital and operating funds from the FTA, as well as other available funds. The Grand Valley Regional Transportation Commission (GVRTC) will use the summary information provided for the 2035 Plan for allocating available funds and project prioritization.

The plan includes the following elements:

- Assessment of transportation needs
- Routes and service areas of providers
- Strategic transit program projects
- Inventory of existing transportation providers
- Identified gaps and duplications in service
- Strategies to eliminate gaps and duplication in service
- Priorities for coordination of services
- Six-year implementation and financial plan
- Inclusion of Grand Valley Transit's six-year financial plan
